

SAVE 9.75% ON TAX

As most everyone in California is painfully aware, the State Board of Equalization and the City of Los Angeles have raised taxes to a whopping 9.75%, effective July 1, 2009.

The good news is that customers who rent from Keslow Camera do not pay this tax on their rentals!

This is because Keslow has paid the sales tax at the time of equipment purchase, rather than collect it through rentals.

The bottom line is that by not charging this tax, you SAVE!

Camera and equipment rentals from Keslow Camera are often substantially less than rentals from other sources who are adding 9.75% to their invoices.
