It is important to understand that your furnishing a certificate of insurance may not fulfill all your obligations under the rental agreement. The limit of insurance coverage for equipment is issued on a per occurrence basis, not a separate limit for all rental companies involved in a production. Therefore, it is essential that the limit for equipment coverage equal the total value of all equipment used on a job. If your limit of insurance is inadequate to cover the loss you will be responsible for the difference between the amount of insurance and the actual loss. It is in both your own interest, as well as our interest, that adequate insurance limits are maintained.
